

To Whom It May Concern:

Inspire Pharmacy has Narcan Nasal Spray two-dose packs for sale. Narcan is the medication used to reverse the effects of an opioid overdose. Inspire Pharmacy is a social enterprise pharmacy; Third Street Clinic (TSC) is 49% owner of the pharmacy. TSC has been awarded a grant specifically to purchase Narcan to be dispensed at Inspire Pharmacy.

Inspire Pharmacy has put together kits which include

- (1) A Narcan 2-dose pack
- (2) A mouth barrier to be used if breathing assistance is required
- (3) Detailed instructions about what to do in an emergency

We will make these kits available for a cost of \$25 to the patient for as long as we have grant funds available. We will continue to have Narcan after the grant has expired, but it will be more costly.

I am sending you this information to share with any of your patients and/or families who may benefit by having Narcan at hand. We will fill a prescription from a prescriber if the patient has one. If not, our pharmacists may write a prescription per a directive from the North Dakota State Board of Pharmacy.

If you need further information, please contact any one of our pharmacists.
